LAYOUT HISTORY

DATE	DESCRIPTION
Aug 2006 I-	Joint Local Officials Workshop - The Local Advisory Committee identified five general Build Alternatives that consolidated general access locations only.
Sep 2006 2-	Tech Memo 2 Alternative Screening - Through the screening process, the Build Alternatives that moved ramps closer to proposed with further study. 8Tl-Compressed Diamond Interchange on existing Stl alignment, and 8T2-Parkway Interchange with Folded Diamond Interchange on the Clark 4 alignment east of existing Tn 165.
Nov 2006 3-	Tech Memo 3 Alternative Evaluation - After further discussion with the Local Advisory Committee, additional sub-alternatives for each were developed. For 8T1-Compressed Diamond Interchange, one alternative is 4Tp1Stl-Partial Cloverleaf with Folded Diamond in Southeast Quadrant. For 8T2-Parkway Interchange with Folded Diamond, three options for alternative were developed: 4Tp2Clk4-Partial Cloverleaf and Folded Diamond in Northeast Quadrant, alternative 4Tp3Clk4-Partial Cloverleaf and Folded Diamond in Southeast Quadrant, and 4Tp4Clk4-Partial Cloverleaf and Folded Diamond in Southeast Quadrant, alternative 4E - shifted Tn 165 with Split Parkway Ramps. Alternatives 8T1-Compressed Diamond Interchange on existing Stl alignment and 8T2-Parkway Interchange with Folded Diamond Interchange on existing Stl alignment were chosen as the recommended alternatives to advance to the recommended option.
Sep 2007 4-	Initial review by WinDOT Central Office - Based on initial comments from WinDOT Central Office, the Tn 165 and north connection were revised to eliminate broken-back curves.
Nov 2007 4-	Moved pond from NE quadrant to SW quadrant, based on comments from Local Officials.
