SURVEYOR'S NOTE

The Northwest corner of Section 26, T151N, R34W was searched for but was not found. The corner position was established using obliterated methods. Mr. Okerman, Land Surveyor, prepared a Certificate of Survey indicating a position for the Northeast and Northwest corners of Section 26. Another Certificate shows the North Quarter corner being set midpoint and on line between the section corners. The Northeast and North Quarter corners were found and used to establish the location of the Northwest corner back in the position as indicated by Mr. Okerman.
