RE: Letter of Support for FY 2025 RAISE Discretionary Program
Planning Grant for East Grand Forks-Grand Forks Bridge Crossing Project

Dear Secretary of Transportation,

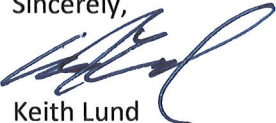

I am writing in support of the City of East Grand Forks, Minnesota's application for funding through the United States Department of Transportation's Rebuilding American Infrastructure with Sustainability and Equity (RAISE) program. This RAISE funding will facilitate the completion of planning efforts to conduct preliminary engineering design, environmental documentation, and permitting for the long-planned bridge connection across the Red River of the North between the cities of East Grand Forks, Minnesota, and Grand Forks, North Dakota. The multi-State planning project will support a range of multimodal options that address diverse local and regional community needs.

The project aligns with USDOT's strategic goals in that it utilizes a multi-agency partnership to address critical mobility and connectivity, quality of life, equity, and economic challenges in the East Grand Forks-Grand Forks area: two (2) cities, four (4) local jurisdictions, and two (2) states. The communities have identified a need for a new river crossing between the two cities to enhance safety, reduce congestion at the existing crossings, and strengthen the current transportation network. The project will address these challenges by providing a safer connection for freight and vehicular traffic across the Red River of the North that includes multimodal access for all users walking, rolling, bicycling, or taking transit between the cities and the surrounding areas.

The population of the East Grand Forks-Grand Forks region is forecasted to increase by 39 percent between 2015-2045. Infrastructure improvements are critically needed so residents and visitors of all backgrounds, incomes, and abilities can access jobs, healthcare, and housing. The completion of the proposed activities will strengthen our system of transport and support continued growth in the region. We anticipate the project, when completed, will facilitate economic growth with high-paying job opportunities for people from all backgrounds.

I support the City of East Grand Forks' application for the funding of the planning activities for East Grand Forks-Grand Forks Bridge Crossing project through FY 2025 RAISE Discretionary Program and look forward to the infrastructure investment in our region through the Bipartisan Infrastructure Law. Please give this grant proposal your full consideration and if I can answer any questions, please do not hesitate to contact me by phone at (701) 746-2722 or email at keithl@grandforks.org.

Sincerely,

Keith Lund
President & CEO
