RE: Letter of Support for the MHFP Grant Program: County State Aid Highway 46 Project from
Trunk Highway 3 to US Highway 52 (Dakota County, MN)

Mr. Clarksen:

I am writing in support of Dakota County's application for funding through Minnesota Department of Transportation's (MnDOT) Minnesota Highway Freight Program (MHFP) grant program. The awarded federal funding would allow Dakota County, the cities of Rosemount, Coates, and Empire, and their partners to address multimodal safety concerns and encourage economic growth on a key corridor in the rural outskirts of the Minneapolis-St. Paul metropolitan area.

The project aligns with the programs' strategic goals as it addresses critical capacity, safety, and mobility challenges. County State Aid Highway (CSAH) 46 is designated as a Tier 2 Regional Truck Freight Corridor in the region and is essential to commuters, transit riders, freight movement, and residents. The project would reduce freight and vehicle delays on the corridor through the addition of travel lanes, enhancing economic competitiveness for aggregate facilities and other freight-dependent businesses while allowing for future redevelopment. Additionally, this project will modify the interchange access ramp at US Highway (US) 52 with roundabouts to help eliminate right-angle crashes at this location and implement access management along the corridor. A multiuse trail will also be constructed along the north side of CSAH 46 with the incorporation of a new trail underpass connecting to the Vermillion Highlands Greenway. This would fill a gap in the existing trail network and enhance safety and quality of life for people walking, rolling, and biking.

I support Dakota County's application to fund the CSAH 46 Project from Trunk Highway 3 to US 52 and look forward to the infrastructure investment in our region. Please give this grant proposal your full consideration and if I can answer any questions, please do not hesitate to contact me. I may be reached at

Sincerely,

September 29, 2023

RE: Letter of Support for the Regional Solicitation Grant Program: County State Aid Highway 46 Project from
Trunk Highway 3 to US Highway 52 (Dakota County, MN)

Mr. Clarksen:

I am writing in support of Dakota County's application for funding through Metropolitan Council's Regional Solicitation grant program. The awarded federal funding would allow Dakota County, the cities of Rosemount, Coates and Empire, and their partners to address multimodal safety concerns and encourage economic growth on a key corridor in the rural outskirts of the Minneapolis-St. Paul metropolitan area.

The project aligns with the programs' strategic goals as it addresses critical capacity, safety, and mobility challenges. County State Aid Highway (CSAH) 46 is designated as a Tier 2 Regional Truck Freight Corridor in the region and is essential to commuters, transit riders, freight movement, and residents. The project would reduce freight and vehicle delays on the corridor through the addition of travel lanes, enhancing economic competitiveness for aggregate facilities and other freight-dependent businesses while allowing for future redevelopment. Additionally, this project will modify the interchange access ramp at US Highway (US) 52 with roundabouts to help eliminate right-angle crashes at this location and implement access management along the corridor. A multiuse trail will also be constructed along the north side of CSAH 46 with the incorporation of a new trail underpass connecting to the Vermillion Highlands Greenway. This would fill a gap in the existing trail network and enhance safety and quality of life for people walking, rolling and biking.

The numerous issues that have been previously submitted regarding vital aggregate reserves, truck traffic access, sightlines and elevations remain the utmost important to our business and our customers. Those letters represent the interests of Dakota Aggregates, Ames Construction, Wells Concrete, Cemstone and Minnesota Mining & Aggregates. Dakota Aggregates support of Dakota County's application comes with an understanding that all the issues in our previous communications will be addressed.

Therefore, I support Dakota County's application to fund the CSAH 46 Project from Trunk Highway 3 to US 52 and look forward to the infrastructure investment in our region. Please give this grant proposal your full consideration and if I can answer any questions please do not hesitate to contact me.
