- Construction
- ★ Construction Complete
- Project obligation deadline for FY 2026 funds
- Project obligation deadline for FY 2025 funds

The project is reasonably expected to begin construction not later than 18 months after the date of obligation of funds for the project.

For construction, obligation occurs generally after the applicant has satisfied applicable administrative requirements, including transportation planning and environmental review requirements. Plans will be completed and shelved until project is funded and added to the STIP.

*Project approvals include Construction Management Agreement (CMA) with railroad, signed 10/11/2023.

Project can be let earlier if funding is fully secured.
