RE: Letter of Support for the 2022 Safe Streets and Roads for All Discretionary Grant Application:
McKenzie County Safety Projects, McKenzie County ND

Dear Secretary Buttigieg:

I am writing in support of the McKenzie County's application for funding through the United States Department of Transportation's Safe Streets and Roads for All (SS4A) Discretionary Grant Application.

The SS4A funding would facilitate the implementation of safety improvements along many miles of road throughout the county. The County's Roadway Safety Plan has designated these areas as a High Priority due to the high frequency of crashes and roadway safety risk factors that are present.

The SS4A funds will implement safety improvements identified as part of the County's Roadway Safety Action Plan. Safety improvements include a wide range of low-cost high-impact strategies along high priority segments, intersections and curves, including pavement markings, edgeline rumble strips, centerline rumble strips chevron signs, advance curve warning signs, speed advisory signs, upgrading signs/markings, installing street lights and reviewing sight triangles. These safety improvements are critically needed so residents and visitors of all backgrounds are provided with improved roadway safety.

I support McKenzie County's application for the SS4A funding for safety improvements and look forward to an improved transportation corridor serving our region. Please give this proposal your full consideration and if I can answer any questions, please do not hesitate to contact me. I may be reached at 701.444.7483.

Sincerely,

Sincerely,

Karolin Jappe
